

DBMS - Unit 2: SQL

Class Notes - Computer Science (English)

1. SQL is the standard language for relational databases.
2. DDL: CREATE, ALTER, DROP.
3. DML: SELECT, INSERT, UPDATE, DELETE.
4. SELECT cols FROM table WHERE condition;
5. JOINS combine rows from two or more tables.
6. Aggregate functions: COUNT, SUM, AVG, MIN, MAX.

Sample placeholder note - replace with your real PDF.
